to pages in our

1908 CATALOG

on which appear

Additions to and Changes in

our various lines.

THIS IS NOT A LIST OF CORRECTIONS.

IN LOOKING OVER THE CATALOG, WE HOPE YOU WILL GIVE SPECIAL CONSIDERATION TO THE PAGES MENTIONED INSIDE.

FINALLY BRETHREN OUR CATALOG AT LAST.

AT LAST we are sending out our 1908 Catalog, which, as you doubtless know, has been delayed for many months. In fact, we were obliged to figure and refigure the prices on our Switches three different times to get a working basis, and if you think that wasn't a job, just write our Cost Department.

Don't, however, do what one man did, who asked us to tell him the basis from which our prices were made, so that he could check it over and decide whether it would be cheaper for him to buy his Switches direct or manufacture them.

There are several things to notice:

1ST. Pages 6 to 37. List prices on a large part of the "A" Switches have been materially reduced.

2D. Page 28. Reduction in price of Quick Break Blades; also, an improvement in them.

3D. Pages 6 to 37 (see bottom of each page). Reduction in price of 600 Volt Switches.

4TH. Pages 22 to 27. Listing of Switches for A. C. work.

5TH. Pages 14 to 17, 26 and 27. Listing of High Fingered "A" Switches for Iron Boxes.

6TH. Pages 46 to 48. Prices made on "A" and "C" Switches, in Iron Boxes. Each Switch placed in Iron Box, and price given for combination.

7TH. Pages 40, 44. High Fingers on "C" Switches, for Iron Boxes.

8TH. Pages 65 to 90. Doubled the number of Panels listed, giving all varieties of combinations.

9TH. Pages 91 to 105. Increased the line of Wood and Steel Panel Boxes.

10TH. Pages 50, 51. Reduced list on Telephone Switches, and added Fibre and Slate Base Telephone Switches.

11TH. Pages 52, 53. Added N. E. C. Combination Switches.

12TH. Pages 106 to 108. Added Panel Circuits and Parts.

13TH. Page 49. Greatly improved and enlarged our Porcelain Base "B" line.

14TH. Page 45. Added "Kappa" Switches.

15TH. Page 34. Added N. E. C. Fuses.
